

STAR CATCHER

FORMAT DESCRIPTION

This fun, fast-paced team format allows players to participate in a series of quick singles points in order to earn stickers or points for their team—an effective format when you have more players than courts.

VARIATION

Play doubles with large numbers and more advanced players.

AGES

Recommended for all ages.

SETUP AND PLAY

- Split players into two groups. Odd numbers are great to ensure that they play someone different every time.
- Send out a player from each line/team until all the courts are filled. Extra players wait in the on-deck line on the perimeter of the playing area.
- Play a designated number of points.
- When players finish, both players exit the court and return to the coach.
 - The winning player gets a sticker.
 - Both players go to the end of the on-deck line.
 - A new player from each line goes out to the empty court.
- This format works best with two coaches/court monitors—one to hand out stickers, one to put players on court to ensure each is matched with a new opponent.
